The year 2018 is European Year of Cultural Heritage. It aims to celebrate the contribution made by Europe's rich cultural traditions to the society, and to promote culture as an important dimension of the EU's international presence.

In this context, the Department of Antiquities of Cyprus in association with the renowned international organisation 'Magnum Photos', with the contribution of BPRarts Cultural Management, is presenting 'MEDITATIONS', an outdoor touring photographic exhibition. 'MEDITATIONS' establishes an unprecedented dialogue between the Mediterranean cultural heritage and the contemporary photographic eye of MAGNUM PHOTO's renowned international photographers. The photographic object is no longer seen as a transparent conduit to the reality of an object but as the bearer of a subjective and carefully constructed viewpoint.
