

Aeromedical Examiners

Medical examination for flight crew are conducted in accordance with Part MED requirements.

For Class1, Class 2 and LAPL revalidation/renewal Medical certificates, EASA Cabin Crew Assessment the applicant has to have a medical examination by an Aeromedical Examiner (AME), or an Aeromedical Center.

The applicant needs to make the appointment for the examination directly with an AME.

An AME is a specially qualified doctor certificate to issue EASA medical certificates to pilots.

Only one EASA medical certificate can be held at any time.

The applicant can only apply for a license from the aviation authority in the state that holds your medical records.

If the applicant is aware of any personal or family medical history, he/she may bring along any additional information or reports to the appointment.

If the applicant wears glasses or contact lenses, he/she needs to take these, together with a recent optician's prescription, along to the examination.

The applicant will be asked to provide a sample of urine, so ideally he/she should arrive at the examination with a full bladder.

At the examination the applicant will need to complete the medical certificate application form. This is a signed declaration containing the following:

- Facts about his/her medical history
- Whether he/she has had a medical examination before, by whom and the result
- Whether he/she has ever been assessed as unfit or had a medical certificate suspended or revoked.

The examination may include some or all of the following:

- Medical history
- Physical examination
- Eyesight and ophthalmological exam
- Audiogram
- Electrocardiogram (ECG)
- Hemoglobin blood test
- Urine test

For more details, please contact the AME.

A medical certificate can be issued by the AME on the same day as the examination if all the requirements are met. If the requirements are not met, or further investigations are necessary, then a decision on your fitness for a medical certificate may take longer.

Authorized Medical examiners are:

1. Dr. Andreas Timothy (AME 001)
19, Loukis Akritas str., 1100 Nicosia
Tel. +357-22780343, +357-99606514
e-mail: timothy@spidernet.com.cy
