

Pursuant to Article IV A & B of the Memorandum, through an exchange of Diplomatic Notes in July, 2007, the Government of the United States of America and the Government of the Republic of Cyprus agreed to extend the Memorandum for an additional five years and to amend Article II of the Memorandum as follows:

ARTICLE II Revised 2007

- A. The Government of the United States of America and the Government of the Republic of Cyprus should seek to publicize this Memorandum of Understanding and the reasons for it, through various means available.
- B. The Government of the Republic of Cyprus will expand its efforts to discourage pillage of cultural resources, and the unauthorized export of such material, through tourist education programs, including posting appropriate warnings at airports, hotels, museums, and other public areas that draw attention to this Memorandum of Understanding and to the cultural heritage protection laws of Cyprus.
- C. The Government of the Republic of Cyprus will expand its initiatives in support of the importance of protecting and preserving the cultural heritage of Cyprus into schools and to the general public.
- D. Both Governments agree that, in order for United States import restrictions to be fully successful in deterring pillage, the Government of the Republic of Cyprus will continue to seek similar cooperation from countries with significant import trade in Cypriot archaeological artifacts and ethnological materials and will strengthen enforcement of its own cultural heritage protection laws.
- E. The Government of the Republic of Cyprus will seek to complete its inventory of cultural resources in museums, ecclesiastical buildings, private collections, and archaeological sites. Every effort should be made to engage all Cypriots in this effort.
- F. The Government of the Republic of Cyprus will develop management plans for the effective protection of those archaeological sites that are open to the public.
- G. The Government of the Republic of Cyprus will use its best efforts to further restrict the use of metal detectors.
- H. Recognizing that rapid land development can give rise to pillage, the Government of the Republic of Cyprus will seek ways to partner with private cultural resource management entities for the purpose of conducting salvage archaeology and historic preservation.
- I. The Government of the Republic of Cyprus will, with the assistance of the international community, study ways to prevent illegal exports from anywhere on the island.
- J. The Government of the Republic of Cyprus will seek to expand the exchange of its archaeological objects and its ethnological materials under circumstances in which such exchange does not jeopardize its cultural heritage, such as for temporary loans for exhibitions, including long-term loans whenever appropriate, and for other cultural, educational, and scientific purposes.
- K. The Government of the United States of America will use its best efforts to expand exchanges with Cyprus that foster greater understanding and preservation of Cypriot heritage.
- L. Both parties to this Memorandum of Understanding will continue to support bi-communal activity regarding cultural preservation on the island.

M. The Government of the United States of America and the Government of the Republic of Cyprus agree to provide each other, either upon request or on their own initiative, with information which helps to ensure proper application of the relevant legislation protecting archaeological materials as indicated in the Designated List, and any other available information on activities involving the smuggling of objects on the List or on persons who are involved in such activities.
